PROFILE

I am a motivated and self-taught web developer with a strong focus on creating efficient and user-friendly web applications. With expertise in the MERN stack and Next.js, I have built several projects that highlight my ability to solve complex problems and deliver high-performance solutions. I am constantly expanding my knowledge of modern web technologies and am passionate about turning creative ideas into practical, scalable applications. At 17, I am driven by a desire to grow and make a meaningful impact in the tech industry.

2030 - PRESENT

PROJECTS

Some projects I have made

Web Applications

- Art Gallery Website (naya-canvas.netlify.app): An interactive online art gallery, built using Next.js, enabling users to explore artwork collections seamlessly. Focused on optimizing image loading and user experience.
- Food Order Landing Page (foodorder-landing-page.netlify.app): A responsive landing page for a food ordering service, designed with clean UI/UX principles using HTML, CSS, and JavaScript.
- Portfolio Website (nahid-info.netlify.app): A personal portfolio built to highlight my skills and projects, utilizing React.js, Tailwind CSS, and Next.js for efficient performance and responsive design.

ACHIEVEMENTS

- Built and Deployed Multiple Web Applications: Successfully developed and deployed three major web applications, demonstrating expertise in full-stack development using the MERN stack and Next.js.
- Self-Taught Developer: At the age of 17, independently learned modern web technologies such as React, Node.js, and MongoDB, completing projects without formal training.
- Active Contributor: Actively contribute to the tech community through GitHub, sharing projects and collaborating with other developers.
